

# 10.5' Circle Garden and Sandbox

- 10.5' Circle Garden and  
Sandbox Kit contains:**
- 8 Curved Timbers
  - 4 Stacking Joints (2 pack)

## Introducing the 'Frame-It-All' 10.5 Circle Garden and Sandbox

For general assembly you can find the instructions in the 2 Pack of Frame-it-all joints.

### ECO-friendly

The framework utilizes our Curved Composite Plastic Timbers. Manufactured from 40% wood fiber and 60% recycled polyethylene, the Eco-friendly durable composite wood grain plastic timbers never rot, warp or splinter. The cut to size timbers connect to brackets with our patented Stacking Joints stakes.

**Dimensions:** 10.5' x 10.5' area

### Installation Notes:

Before starting to assemble the 10.5 Circle Garden and Sandbox, refer to the parts diagram to understand how to screw the brackets onto the timbers. Remove the Stacking joints from the plastic bags and lay out the parts. Each of the joints is comprised of a stake and two brackets, plus the necessary screws.

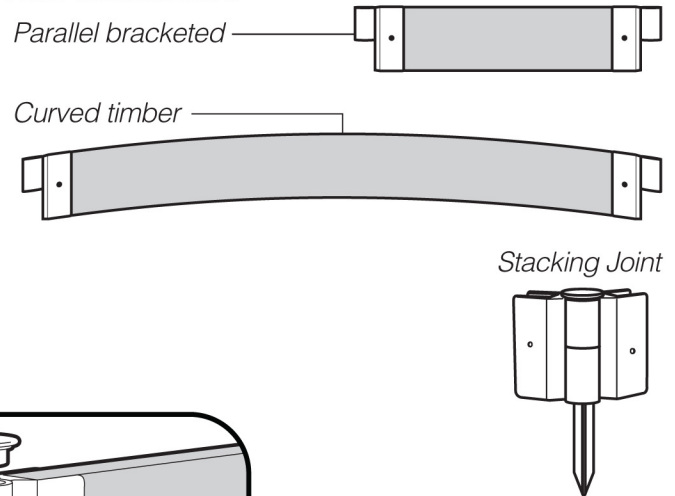

### Tools Needed:

- Phillips head screwdriver (electric or battery preferred)
- Hammer

### How the Joints Work

### Parts Identification

### Special Installations:

Connect brackets parallel to all 8 curved timbers as shown in parts identification above.

**Level one (diagram 1)**

Materials: 8 curved timbers, 8 stacking joints

Shape adjustment: Create a circle by connecting all of the bracketed timbers with the stakes upside down (A) so the timbers can be angled easily (Diagram 1).

**Diagram 1**

Design adjustments should now be done as needed.

**Diagram 2**

Once the desired position is achieved, turn stake fins facing down and hammer stakes through bracket tubes into ground. For additional levels, just stack timbers using stacking joints.
